PROFESSIONAL SUMMARY

Full-stack developer with hands-on experience in MERN stack development, RESTful API design, and MongoDB database integration. Proficient in JavaScript, React, Node.js, and Express.js, with a strong foundation in Data Structures and Algorithms, OOPs, DBMS, Operating Systems, and Computer Networks. Experienced in building responsive web applications, developing backend services, and working with Git-based development workflows.

EDUCATION

Durgapur Institute of Advanced Technology and Management <i>Bachelor of Technology (CGPA: 7.05)</i>	Durgapur, West Bengal 2022 – 2026
Akash Institute of Technology <i>Diploma (Percentage: 70%)</i>	India 2016 – 2019

TECHNICAL SKILLS

Languages: JavaScript, Java, HTML, CSS
Frontend: React, Tailwind CSS
Backend: Node.js, Express.js, REST APIs
Databases: MongoDB
Tools: Git, GitHub
Core Subjects: Operating Systems (OS), Computer Networks (CN), DBMS, OOPs, DSA

EXPERIENCE

Intern – Unified Mentor Pvt. Ltd.	6 Months
- Developed and integrated RESTful APIs using Node.js and Express.js, improving backend efficiency. - Built and tested full-stack features using the MERN stack (MongoDB, Express.js, React, Node.js). - Collaborated on database design and API integration for seamless frontend-backend communication. - Gained experience in debugging, version control (Git), and real-world development workflows.	

PROJECTS

RentEase — AI-Powered Full-Stack Furniture Rental Platform <i>Node.js, Express, MongoDB, REST API</i> Live Demo: https://rentease-ai-full-stack.onrender.com GitHub: https://github.com/skvishwakarma828401-dot/RentEase-AI-Full-Stack	
- Built an intelligent customer support and furniture recommendation AI assistant with live MongoDB inventory search. - Engineered multi-step checkout with tenure-based discounts (up to 35%), address validation, and simulated payment gateway. - Implemented real-time order tracking dashboard with a 4-step delivery progress timeline and user order cancellation. - Developed a role-based Admin Management Portal for real-time revenue analytics, order lifecycle management, and inventory CRUD.	
Pathology Lab Management Website <i>HTML, CSS, JavaScript, Node.js, MongoDB</i>	
- Developed a web application for managing pathology diagnostic test bookings and patient medical services. - Implemented REST APIs and MongoDB database integration for efficient data handling and PDF receipt generation.	

CERTIFICATIONS

- HackerRank Software Engineer Certification
